

**STATUS OF THE CLAIMS**

Claims 1-46: Original

Applicant is submitting a substitute specification for examination purposes. The claims as originally filed have not been amended.

**REMARKS**

Pursuant to MPEP § 608.01(q) and 37 CFR 1.125 Applicant respectfully submits for examination the enclosed substitute specification. Applicant is submitting the substitute specification which includes new drawings and text to correct informalities with the reference numerals. New reference numerals appear in Figures 2, 3, and 4 and in the written description to uniquely designate the different parts of those figures.

Applicant is submitting a substitute specification rather than an amendment because the number and nature of the amendments would render it difficult for the Examiner to consider the application. The substitute specification includes no new matter. Enclosed is a marked up version of the substitute specification showing all the changes. Also enclosed is a clean form version of substitute specification without markings as to amended material.

Applicant respectfully requests that the present application is now ready for examination.

Respectfully submitted,
